

# Design Evanston

## 601 Davis Project Review

7pm Tuesday, September 26, 2017

**Greg DeStefano** has teamed up with Vermillion Development to develop a 318 unit apartment building with parking and retail at the base. The site is adjacent to the University Building on vacant land combined with the Chase drive-thru.

Design Evanston's goal has always been to encourage the best design for our city. Our organization's feedback is often instrumental in seeing well-designed projects approved in Evanston. The team will be presenting to DAPR on Wednesday October 11—so our feedback will be valuable and timely.

### **Celtic Knot, 626 Church Street, Meeting Room**

This event is for Design Evanston members only. Space is limited to 30±. RSVP by Monday, September 25 by emailing: [event@designevanston.org](mailto:event@designevanston.org)
